Dine-In Connecticut!
CONNECTICUT'S FOOD DELIVERY NETWORK

Dine In CT Will Be Your Dedicated Delivery Service

Dine In Connecticut has been providing local delivery services for 10 years to homes, businesses, hospitals, hotels, and many more. We are partners with over 200 Connecticut restaurants for all of your food related needs! Our Customer Service Specialists are available at our Farmington office seven days a week.

We understand how important it is to have a safe reopening. Having a private delivery service, like Dine In CT, that assigns your facility a Mobile Waiter that you will get to know and rely on is a much better solution. The national companies work on an algorithm and use the closest driver, so you never know who it will be. The safest way to reopen is to limit the number of people your staff comes into contact with. We can also organize your orders to accommodate any facility specific requirements or restrictions.

Add Dine In CT delivery to your value added services for your residents. We work closely with our restaurant partners to generate options your residents will love. Our catering experts can create some amazing meals for you. All we need to know is how many people you are serving, any dietary needs or food allergies, and the budget you are working with. We can also include utensils, plates, serving ware, drinks, etc.
